

2011 Phase 1

## **VOLUNTARY WATER RESTRICTION**

June 15, 2011 to October 15, 2011

**Water only between the hours of  
4:00 – 8:00 AM and 4:00 – 7:00 PM  
On an odd / even watering schedule**

The Harwich Water Department in its conservation efforts will be implementing a voluntary odd / even watering schedule. This year beginning June 15, 2011 we are once again imposing a **Phase I voluntary water restriction**. Hopefully, with all our customers adhering to this program and with continued rainfall we should remain on a voluntary status throughout the summer.

We are asking that the Community Gardens follow the **Phase I voluntary watering schedule**, beginning June 15, 2011. It becomes extremely difficult when we ask our other customers to adhere to our water restrictions, when they witness Town properties using excessive water. Cooperation from your gardeners is greatly appreciated in helping us protect our valuable water supply.

Summer Water Conservation Program  
Effective June 15, 2011 – October 15, 2011

**Water only between the hours of  
4:00 – 8:00 AM and 4:00 – 7:00 PM**
